

# JERINE JOSHWA S.A

## MERN STACK DEVELOPER

PH : 9994718158 | MAIL : jerinjoshwa123@gmail.com | Bangalore

### PROFILE SUMMARY

MERN Stack Developer with expertise in MongoDB, Express.js, React.js, and Node.js. Skilled in building responsive web applications, creating RESTful APIs, and integrating third-party services. Experienced in version control, deployment, and writing clean, maintainable code. Passionate about developing scalable and user-friendly digital solutions.

### PROJECTS

#### STUDENT PORTAL

SEP 2025

Thrilled to share my latest project: a Student Portal Dashboard that centralizes academic data with an animated sidebar for easy navigation. Built with React.js (Vite) and styled using Tailwind CSS, it offers a sleek, fully responsive UI. The backend uses Node.js/Express.js with MongoDB to handle grades, assignments, and attendance, while Firebase enables secure Google Sign-In. This project highlights my full-stack skills in building scalable, user-friendly academic tools.

#### WEATHER APP

AUG 2025

Excited to share my Weather Forecast App built with React, Axios, and OpenWeather API, featuring real-time weather updates and dynamic backgrounds. The app has a modern, responsive UI with Tailwind CSS and reusable components. This project helped me enhance my skills in API integration, React hooks, and UI/UX design.

#### TN-24 Clothing Website

JULY 2025

The TN-24 Clothing Website is a stylish and fully responsive e-commerce platform built with HTML, Tailwind CSS, and Node.js. It offers a clean interface with a powerful search function, making product discovery quick and easy. Optimized for mobile devices, it ensures smooth browsing across all screen sizes while combining modern design with efficient backend operations for a seamless shopping experience.

#### APPLE INDIA CLONE

JUNE 2025

I created an Apple India Clone Website to enhance my web development skills using React.js, Tailwind CSS, Node.js, and React Router DOM. The project replicates Apple's sleek and modern design with a fully responsive layout and smooth navigation. It combines clean UI design with functional backend support, ensuring a seamless user experience across devices. This project helped me strengthen my expertise in frontend development, routing, and performance optimization.

### EDUCATION

#### Bachelor of Computer Science Engineering(Cyber Security)

Karpagam Academy Of Higher Education | CGPA - 7.5 | (2023 - 2027)

### ADDITIONAL INFORMATION
